SIT, STAY, TALK 18

By Presentation club

REPORT

Report Summary:

The Megha Institute of Engineering and Technology for Women's annual fest was held on the 8th, 9th, and 10th of November 2018 on the wide-spread college campus at Edulabad, Ghatkesar. During this time, lecturers and students from all of our departments were encouraged to participate in a three-day festival where each club/discipline sponsored its own events and competitions. The presenting club from the Computer Science and Engineering department organised the SIT, STAY, TALK event this year.

Throughout the first two days of the festival activities involved technical aspects. Therefore on the first day of the event, Thursday, November 8th, 2018, the held a non-digital presentation competition called Poster Presentation Competition where participants developed arts and pictograms on charts to convey their perspective about a theme of their choice. There were 18 participants on the first day, representing different departments and academic years.

The event moved to a digital presenting platform on the second day, November 9th, 2018, called PPT Presentation Competition. Students created digital presentations on topics of their choosing using tools of

their desire. The participants wanting to join on this day increased to 32 to showcase their chosen topics and skill.

The entire two-day event was anchored by Ms. L.Neha, who partnered with the club mentors to guarantee an informative, successful, and peaceful event. The two-day event had a total of 39 unique participants, with 11 common participants in both the digital and non-digital parts. On the last day of the technical part of the festival, the winners of both competitions were announced and awarded; on the second day, November 9th, B Mahitha Reddy gave a vote of thanks to all of the people involved in the planning and presenting, mentors, coordinators, students, staff, and very importantly the competitors and the visitors.
