

Department of Civil Engineering

Action Taken on The Basis of Students Feedback Analysis

1.Course	B.Tech (CIVIL) R16 Regulation
2.Subject	1.Rehabilitaion and Retrofitting of Structures 2.Waste Management
3.Recommendations	Students faced difficulties in the above subject. Software training on CAD and Structural Designing etc. Also suggested to make NPTEL mandatory.
4.Action	After receiving the suggestions from the students we have planned to conduct various training programs and value added courses to get hands on experience on current technologies. Instructed all the students to registered at least one NPTEL course per semester.

Department of Electrical and Electronics Engineering

Action Taken on Basis of Students Feedback Analysis

1.Course	B.Tech (EEE) R16 Regulation
2.Subject	1.Power Quality 2.Utilization of Electrical Power
3.Recommendations	We have conducted a session to get the feedback from the students of their respective subjects ,we came to know the issue regarding these subjects which requires more practical knowledge. MOOC courses can be introduced to all the students
4.Action	After several recommendations we have decided to conduct workshops and its made that MOOC courses can be mandatory for all the students Given the guidelines to the faculty to conduct more awareness programs on emerging technologies PLC techniques, solar power, Robotics etc.

Department of Electronics and Communication Engineering

Action Taken on the Basis of Students Feedback Analysis

1.Course	B.Tech (ECE) R16 Regulation
2.Subject	1.Embedded Systems Design 2.Data Analytics
3.Recommendations	We received suggestions from the students regarding the difficulties about the current syllabus. Suggested to conduct enrichment of the students. Internships can be mandatory for the students.
4.Action	After considering the suggestions from the students and teaching staff, we have recommended to conduct the workshop and value added courses to enhance the skills in order to meet industry requirements.

Department of Computer Science and Engineering

Action Taken on The Basis of Students Feedback Analysis

1.Course	B.Tech(CSE) R16 Regulation
2.Subject	1.Cloud Computing 2.Data Analytics
3.Recommendations	Along with regular courses additional courses are to be added. Conduct workshop on recent trends. Example: Big Data
4.Action	After receiving the feedback from the various students we planned to conduct various seminars and hands on workshops on emerging areas like Machine learning, Data science etc. Industrial visits to product based companies.

Action Taken By The Institution On Feedback Received

Based on the Analysis of the Student feedback forms, the below Action Taking steps are framed.

Measures to be taken:

1. Comfort and Skill in the Subject should be improved by conducting Seminars to the Students.
2. The Lectures should be conducted within the given time.
3. Content of the course should be adjusted by planning the Contents types and Structuring the course with what is finalised.
4. The Queries of the Students should be cleared by the faculty as the Satisfaction of the Students is important.
5. The Management should make sure that the Study materials must be available.

Action taken by the Institution on Feedback Received

Based on the analysis of the Faculty Feedback forms, the below Action taking steps are framed

Measures to be taken:

1. Friendly Environment with the Faculty should be improved by the Department.
2. Including and improving various resources like teaching and Study aids (Projector/Library).
3. Workload in the College should be decreased.
4. Facilities provided to the faculty should be improved.
5. The Allotted time for the Subject should be adjusted according to the willing of the Faculty.

Alumni Action Taken Plan

Based on the Analysis of the Alumni feedback Forms, the below Action taking steps are framed.

Measures to be Taken:

1. Developmental Activities should be organized by the College, So that the Students could be willing to contribute to the development of the College.
2. Developmental Activities organized by the College should be improvised, So that the activities may help the students in their Overall development.
3. Courses like Aptitude and other Computer languages must be included in their day to day classes, So that the knowledge gained in College will be relevant in their jobs.
4. The facilities provided by the hostel should be improved like keeping hostel rooms and Dining halls clean and by providing the food of better Quality.
5. The Academic Initiatives taken by the College to bridge the gap between Industry and Academic should be Improved.

Action Taken By The Institution On Feedback Received

Based on the Analysis of the Employer Feedback forms, the below Action taking steps are framed.

Measures to be taken:

1. Engaging students in the various technical events in order to improve their technical skills.
2. Improvising the calibre of graduates to improve their skills.
3. Creating awareness about the company profile by letting them know about the various companies.
4. Including classes of the various Programming languages in their day to day timetable, So that the Students could respond to questions confidently.
5. The interaction of the Students with the Employers should be improved.

Respected sir,

Subject: Request to consider the following suggestions for inclusion of few topics in the Civil Department(R18) regulation- Reg.

I would like to bring to your kind notice that our college **Megha Institute Of Engineering And Technology For Women, college code(RP), CIVIL Department** had departmental meeting after the end of recent semester 2022. Our staff has suggested to add the following topics into the subjects for new regulation.

1) Remote Sensing and Geographical Information systems was included in R16 regulation but in R18 regulation the above subject not included. We suggest that, this subject is more useful to students, So we request to include in new regulation.

I appreciate your concern for students community in enhancing the syllabus from time to time and suggestions which you seek from affiliated colleges.

Thanking you.

Yours faithfully,
Head of the Department,
CIVIL, MIETW.

Respected sir,

Subject: Request to consider the following suggestions for inclusion of few topics in the ECE Department(R18) regulation-Reg.

I would like to bring to your kind notice that our college **Megha Institute of Engineering and Technology for Women, college code-(RP), ECE Department** had departmental meeting after the end of recent semester 2022. Our staff has suggested to add the following topics into the subjects for new regulation.

- 1) Inclusion of Embedded 'C' lab in III year-II semester.
- 2) Embedded Systems syllabus has to be modified to suit the practical requirement such that students can do hands-on.
- 3) Inclusion of 4G and 5G technologies into the communication syllabus.
- 4) The syllabus has to be framed as 60% theory and 40% practical's to emphasis more on hands-on and transform colleges into finishing schools, the syllabus has to be modified to suit the industry requirements.

I appreciate your concern for students community in enhancing the syllabus from time to time and suggestions which you seek from affiliated colleges.

Thanking you.

Respected sir,

Subject: Request to consider the following suggestions for inclusion of few topics in the CSE Department(R18) regulation- Reg.

I would like to bring to your kind notice that our college **Megha Institute of Engineering and Technology for Women, college code-(RP), CSE Department** had departmental meeting after the end of recent semester 2022. Our staff has suggested to add the following topics into the subjects for new regulation.

- 1) The books from which the syllabus is framed is to available in the market. So we request you to please mention the name of the textbook from which syllabus is framed.
- 2) Machine learning using python lab is conducted in III year II semester but the python subject is not included before III-II. So the student & faculty are finding difficulty in assimilating the lab practical's. We suggest to add machine learning & python together in the same semester and lab also in III-II.
- 3) The syllabus has to framed as 60% theory and 40% practical's to emphasis more on hands -on and transform colleges into finishing schools, the syllabus has to modified to suit the industry requirements.

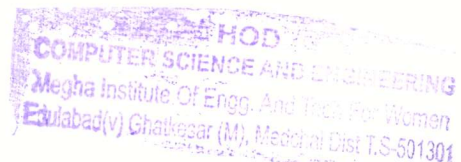

I appreciate your concern for students community in enhancing the syllabus from time to time and suggestions which you seek from affiliated colleges.

Thanking you.
