5.1.3 Capacity building and skills enhancement initiatives taken by the institution include the following

### **CAREER TUNER INITIATIVE**

#### **Functions**

1. Understanding the needs and demands of the Industry, community and preparing the road map to nurture students as per the demands.
2. Counsel the students on career development.
3. Organize SOFT SKILLS Word accent ascent resume building
4. Pronunciation write up skills for collection and presentation of seminars.
5. Speech skills
6. Talks
7. Pep talk
8. Extensible expansive talks extempore talks
9. vocabulary daily vocabulary
10. Semantics
7. Ensuring cordial relationship with the corporate and industry.
8. Organize guest lectures.
10. Displaying various industry experts consultants corporate trainers include videos from Entrepreneur

#### **Roles and Responsibilities**

##### **Coordinator:**

1. To accommodate business vocabulary corporate communication in class room environment
2. To approach various soft skill trainers with the Human Resource Managers in the campus to motivate students to make good use of English language communication in campus
3. To collaborate with HR Managers across the industry and collaborate with the placement officers of the other colleges to organize ON/POOL lectures and talks

List of the programs have been conducted MIETW in the past five years

2016-17, 2017-18 2018-19. 2019-20, 2020-2021	Career tuner soft skills and job workshop
Batches ECE, EEE, CSE, Civil	Every fortnight

1. To coordinate the peer learning activities, mock interviews, resume preparations etc.,
2. To motivate their class groups for active participation in the various activities those are planned for their future prospects.
3. To share their plans/ideas with respect to the industry needs in accordance to their collective requirements of their class group.
4. They act as volunteers/nominate volunteers during the placement activities to coordinate the hiring process along with the placement team.
  - Student feedback

**Suggestions:**

**Relevance of program**

**1)Sushmita c Btech 2017 civil group...** “I think such orientation programs and workshop an softskills will enhance our communication skills and spoken english”

**2)Pushpa 2021 b.tech ECE** “Coming to the point of the soft skills and language communication program its all good when you know you re going to take on corporate world.

**3) Keerthana Btech 1st Year :** Will always give hands on experience to the student community will also make them aware about the interviews to be faced in future.”

**4) Yashaswini.p from B. tech CSE** “Career Tuner institute has done up with conventions and seminars till date every time there is an excitement and rejoicing with new concepts of communication models and soft skills with learning presentations writing e mail and resume creation and designing various templates using office documents in ms office”

**Tammie kavya B tech 2019 pass out** “this one always was special soft skills been learnt at college think lot of out MIETians had benefitted and those who post resume awaiting jobs were instrumental in asking others to join shruti of career tuner classes on fortnights and frequent basis,no matter world was shut for co Vid since we had connected to right mentors through online mode also have paved our ways to attain the jobs easily”.

Medchal(Dist), Telangana-501301

Need any change in concepts?

1) sunaina B.tech 2021 batch "I think soft skills have been listening tasks other job skills like short message drafter course would be beneficial alongside long term assessment if would be planned especially on E – mail writing is like adding a feather in cap"

Student Feedback Summary: By CSE A 2021 batch for (Interview skills program by Career Tuner)

1. The Sessions are held on time
2. The topics are covered
3. The topics are explained thoroughly
4. Examples are taken from real-life domain
5. The Guest Lecture is beneficial to me
- 6 Doubts are clarified
- 7 The sessions are interacting

## Why English Communication is important nowadays

With proper knowledge  
in English, you  
can strengthen your  
career from initial stage

By using the internet  
you can find many  
communication skills easily  
and you can find and practice it  
in the language

## **A Report**

**Khaleel sir's phonetics and Accent Training 2017.**

**Mohammad Khaleel Professor of Humanities and Sciences VBIT HYDERABAD**

Mohammad Khaleel Akthar Assistant Professor of Vignan Institute Of Management and Technology for Women, and Faculty of English Department.

Mr. Khaleel was proactive in garnering his expertise every year as per his busy schedule sir has taken time out for MIETW students for phonetics and accent training development and for one day workshop involving with special sessions on lab activity with phonics and INTERNATIONAL PHONETIC ALPHABET modules practiced for students with diverse discourse

The discourses cover the oral drilling of words with phonetic transcriptions for say diphthongs thifthongs monotones and other divisions in phonetics and followed by semantic approach of vocabulary pronunciation sessions with transcript.

With pen paper subsidized with digital dictionaries, Merriam Webster or other digital dictionary and some students availed application on mobiles with offline dictionaries for most upgraded pronunciation of letters and words. The Etymology of upgraded words in business communication latest changes shown in lab for experience manifestation for using the words

phonetics are important part of English language communication students for engineering students for communication in real world where foreign language is crux of business world and mandatory in Multi National companies.

In other words engineering students will become independent n

**In other words, children will become independent readers when they are able to understand meaning behind the written words**

A flash word quizzing and guess the word competitions held after the session of 45 minutes was conducive to the level of MIETW students

And further his Expertise would always recommended by Faculty and students for future.

## Appreciation Certificate

On behalf of the MIETW I would like to express our Sincere gratitude for commendable

Work has been done by you during the one day work shop and your initiative is always binding with us

Thank you sir for your wonderful extended support, and we wish that we would expect you would interest in visiting the campus often to give your sessions.

Your work shop on Phonetics and Accent Training had shown impact on the minds of our people and

Instilled a positive vibe in student's hope that encourages each of them build on productive information.

We sincerely appreciate your valuable contribution and look forward to the Support from you in future also.

With warm regards

## Life skills and presentation skills - A Report

**5.1.3 List of programs for student support initiatives conducted by institution during five years**  
**Life Skills and Presentation skills orientation –swami Bodhananda maya, from Rama Krishna Matt**  
MIETW has unique initiative deterring away from traditional method of rote -learning by facilitating students with online learning and expert talks as we all know year 2019 was a year with pandemic situation and shut of all institutional studies, paved the way for self learning and self assessment, this also clubbed with offline session to counter stress and completion of syllabus

Without exhausting and excruciating learning content you tube links Google meet and Zoom log- ins have open the window of online initiatives of virtual class rooms.

As a part of the life skills program we have more than 20 student development programs and events during the 2020- 21 academic year and we weren't deterred away due to one more wave of co vid countered in august 2021 and thus left with no physical classes thanks to our well wishers and organizations that MIETW have not seen any psychological implications that studies and learning could have taken over our experts from Ramakrishna matt Domalguda have interactive sessions with offline mode when classes resumed in September 2021 where luckily Hyderabad wasn't reported on the covid pandemic that severely we have a mix of academia and experts for the support of students to enhance every bit of empathized learning vests with them

MIETW has unique initiative deterring away from traditional method of rote -learning by facilitating students with online learning and expert talks as we all know year 2019 was a year with pandemic situation and shut of all institutional studies, paved the way for self learning and self assessment, this also clubbed with offline session to counter stress and completion of syllabus

Without exhausting and excruciating learning content you tube links Google meet and Zoom log- ins have open the window of online initiatives of virtual class rooms.

As a part of the life skills program we have more than 20 student development programs and events during the 2020- 21 academic year and we weren't deterred away due to one more wave of co vid countered in august 2021 and thus left with no physical classes thanks to our well wishers and organizations that MIETW have not seen any psychological implications that studies and learning could have taken over our experts from Ramakrishna matt Domalguda have interactive sessions with offline mode when classes resumed in September 2021 where luckily Hyderabad wasn't reported on the co Vid pandemic that severely we have a mix of academia and experts for the support of students to enhance every bit of empathized learning

Both our institution and the expert speakers coming from Rama Krishna Mission, who have given their valuable time and gave the advices, suggestions and examples ,from real life experience in what they have expertise with, speakers from Ramakrishna matt especially Swami Bodhamayanandh, from Ramakrishna mission Hyderabad who have laid his spiritual exodus at MIETW back in 2017 have that didn't fade away from minds of our beloved faculty and students would never forget,

It was an earmarking and impervious ideation by Bodhamayanandaji clubbed with essence of ascetic values, Aesthetics come perched on branch of science, the aura of his manifestation his excellence swami Bodhamayanandaji had made us felt his presence, with a sudden burst of roar and cheers of young girls who would reckon a spiritual man with conscious of science had given enroots to success.

And during 2021, we have our eminent scholar renowned Mr. ML .sai Kumar who had his expert talks in ITSE seminar and online discussions on co vid times learning perceptions as well as professor Ashbin shah delivered seminar on health management. On contrary in 2021 we have our own principal

Dr. M Venu Gopal, scientist in Electronics and communications, MDT Grad IETE, M.Tech and PhD. He remained amazingly active in the field of research and published 25 papers in several international conferences and journals of repute. He worked in industry for 11 years and afterwards moved towards teaching for 22 years and who have given many number of seminars during 2020 and 2021 enhancing faculty and students his ideation about the scientific perception and divergent illustrations from the society.

Presenting clearly and effectively is important now days. The clear and contrasting features of your content is going to enthuse audience every now and then as present days data permanence has made available the storing of particular address speech presentation retrieved on web basis or for say blog web page or html files stored over different web applications

So giving clarity of thought of what concentration and expressive skills has to with where we connect to interviews conducted on rapid fire and extempore topics students are going to lack the basic presentation skills so as to stimulate one's mind and body and soul in integration to content to be stored by us which should be flawless anti plagiaristic we need better concentration so spiritual leader like swami bodhanandmaya had enough impetus given to how stimulate thought during difficult scenarios such as interview presentation of projects and mostly his speech surrounded how engineering field has mechanics of writing tasks and talking skills which must be put to use on priority basis.

## FEEDBACK AND REPORT ON LIFE SKILLS AND PRESENTATION SKILLS CONDUCTED BY MIETW.

5.1.3 List of programs for student support initiatives conducted by the institution during five years

Life Skills and Presentation skills orientation –swami Bodhanandamaya, from Rama Krishna Matt

MIETW has a unique initiative deterring away from the traditional method of rote-learning by facilitating students with online learning and expert talks as we all know the year 2019 was a year of the pandemic situation and the shutting of all institutional studies, paving the way for self-learning and self-assessment, this also clubbed with an offline session to counter stress and completion of syllabus

Without exhausting and excruciating learning content YouTube links Google meet and Zoom log-ins have opened the window of online initiatives for virtual classrooms.

As a part of the life skills program, we have more than 20 student development programs and events during the 2020- 21 academic year and we weren't deterred away due to one more wave of co-vid countered in august 2021 and thus left with no physical classes thanks to our well-wishers and organizations that MIETW have not seen any psychological implications that studies and learning could have taken over our experts from Ramakrishna matt Domalguda have interactive sessions with offline mode when classes resumed in September 2021 where luckily Hyderabad wasn't reported on the co-vid pandemic that severely we have a mix of academia and experts for the support of students to enhance every bit of empathized learning vests with them

Life skills orientation lecture and address by the scholars from Hyderabad, who have given their valuable time and gave the advice suggestions and examples from real-life experience in what they have expertise with. Speakers from Ramakrishna matt especially swami Ji from

Swami Bodhananda, his spiritual omniscience and scholar of the modern era,

from Ramakrishna mission Hyderabad who has laid his spiritual exodus at MIETW back in 2016 have hasn't faded away from the minds of our beloved faculty and students would never forget,

it was an earmarking and impervious ideation by swami Bodhananda clubbed with the essence of ascetic values, Aesthetics come perched on the branch of science, the aura of his manifestation his

excellence swami Bodhananda had made us felt his presence, with a sudden burst of roar and cheers of young girls who would reckon a spiritual man with conscious of science had given enroots to success.

Coming to staged occasion our principal sir wasn't left out to give his expert advice and inspire the students.

Dr. M Venu Gopal, a scientist in Electronics and communications, MDT Grad IETE, M.Tech, and Ph.D. He remained amazingly active in the field of research and published 25 papers in several international conferences and journals of repute. He worked in the industry for 11 years and afterward moved towards teaching for 22 years and who, have given the many of seminars, between 2020 and 2021 enhancing faculty and students his ideation, about the scientific perception and divergent illustrations from real-life illustrations.

Overall Life skills and Presentation skills, orientation for our MIETW students had worked out, to reverberate with university professors, professionals mentors, principals from various schools, and colleges the police personnel interacting about public safety and anti-ragging and other issues, Moreover student committee, also become active in taking on, course of action to arrange the presentation done by them every now and then.

### 5.1.3 Capacity building and skills enhancement initiatives taken by the institution

#### Life skills -presentation skills

The term, Life Skills, refers to the skills you need to make the most out of life MIETW follows a innovative Life Skills Programme. Our program aims at emotional physical and psychomotor domains of learning of students with a rigorous learning program.

Over the years its considered that life is a skill acquisition process if anyone tries on their shoe laces, swimming, driving a car and using a computer are, for most people, useful life skills. Broadly speaking, the term, life skills, is usually used for any of the skills needed to deal effectively with the challenges of life

Life skills are abilities for adaptive and positive behavior that enable humans to deal effectively with the demands and challenges of life.

Human life is betwixt all crises involving different challenges and the perception of success belong to those who don't deter away with problems in life MIETW has effective mentoring program over the years through this platform, life skills, could do balance in the academics and wide variety of topics which would build an empathetic personality.

List of the classes conducted during 2016-2017.

## Feedback summary:

Mietw has the life skills and presentation skills taken as important program for the five years ,2016 2017. The program have immense response in 2018, on reversion with adept to student, and transcendental insights to faculty and humanities and sciences department with Dr Padmini giving the introduction to program and honorable chairperson has the motto shared with students and honorable chairman giving his spiritual address, just days after the sports fest students received the divine blessings of swami Bodhananda , the saint of Hyderabad giving his connectives to inner state of mind inner consciousness, there in build upon by student will be collaborative result in mind control and stimulation into education career and streamlined entrepreneurship.

Student were at spiritual retreat with closed doors teaching have paved a way to outdoor address open with heaven above and below the mango grove and champak tree glade and breeze with air and aura of spiritual disquisition.

Where students of Mietw have been driven into spiritual sermon a exquisite session with mark of majestic scorn, with essence of spiritual instruction without being frivolous things brought on all student were in unity of thought, and were communicated with all moralistic changes were to be brought upon being a student swami had an astounding impact so as to make student visualize the ongoing technological development clubbed with spiritual realities of world

How human being from ages to ages practiced the meditation spiritual conscious hadn't been oblivion at times.

No matter if listeners knew the importance of Vedas supreme conscious or omnipotent power behind all world, swami stressed on righteous paths and ennobling minds will never deter away from being achievers.

“The success in reality is to leave the physical forms of life and attain the divine the Samadhi, which in terms with our religious philosophies say as, salvation where all scriptures have talked about it, why not use this instruction for right doings –stay , un perturbed for worlds turmoil ,stay upright to goals help the needy and poor, help yourself getting out of malice and bad habits stay away from malicious thought s mad whims .which may make you off- focused and discard you from attaining your actual goals in life. So, prevail all godly instruction stay in right path right instruction follow your teachers who are the pool of knowledge and vitality their vibrancy with subjects will clear your murky mind hence mind is all malady of murkiness called myth and confusion thus all life is yours in your own hands.”

Dear all,

This is to inform about (I.C.T.) Information Computer Technology Workshop, Would be conducted from 9<sup>th</sup> November to 12<sup>th</sup> November, Hence its advised to all students of all groups to avail this wonderful opportunity to explore and harness their virtual knowledge through out four day programme

Following activities would take place as a part of ICT -Workshop

DAY1	DAY2	DAY3	DAY-4
DEBUGGING	Web Development	PYTHON,JAVA,VIZ	Gaming consoles

Hope you all would join

### Information and Communication Technology

ICT provides Virtual Lab of computer science Engineering, MIETW Hyderabad has provided VLab facilities to the students of various departments. The lab activity consists of practices on connectivity hardware tools CRT and plug and play software utilities, basic and advanced concepts through remote experimentation. PYTHON c-Language AUTO CAD Programming involving OOPS concepts MULTIMEDIA Flash Viz vis... students could avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.

#### **Measures Undertaken for Successful ICT Programme.**

Workshops on Labs were conducted on regular basis.

During the regular labs Students work on programmes with special focus

Students have ascertainment on various aspects

Students have worked on the case studies provided by Various portals

Students have availed the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.

Students have applied the concepts by initiating innovative projects.

Mietw has also encouraged students to use computer labs for getting online course irrespective of academics through Nptel courses through Moocs

Where in most the advantages of Mooc courses being

As the Mooc courses are advantageous being run parallel to academics without difficulty and student get complete exposure over concerned topics.

Students working with concepts of various subjects on various online programs.

ICT is Information and Communication Technology in MIETW has been organized by faculty with support of c.s.e department, to enhance and facilitate academics through imparting and arranging computer peripherals related to teaching tools and Teaching aids an audio visual presentation that contains sufficient material, circuit diagrams, network diagrams, process diagrams and flowcharts. Softcopies of the books prescribed in the syllabi on various diaspora of engineering subjects.

Whether if, It is chemistry physics or English lab or to the implementation of ICT has enabled MIETW to get in track with latest changes and automation for technology driven classroom environment.

The classroom discussions are also clubbed with expert talks of video lectures, presentations, connectivity to various topics through projection class.

Garnering students with advanced and most updated syllabus from web linking sessions in seminar hall and active feedback after run on class of WebEx Google meet Etc.

Feedback summary of students who have participated in INFORMATION COMPUTER TECHNOLOGY

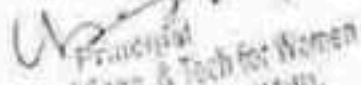

WORKSHOP 2019.

Students have participated in Information Computer Technology workshop have experience updated technology with access of expert talks, symposiums, lectures have shrugged away classroom concepts replacing application knowledge of different softwares.

At MIETW, we take great care as lab facility in mornings have been totally utilized by workshops as regular schedules for lab projects have been streamlined as students, from all groups now been found enthusiastic for work shop sessions. Expert faculty have taken up seminars about the latest trends and soft wares and specifically faculty from CSE dept had given demonstrations with ppts and digital classes, pre recorded video url links making classroom learning replacing practical sessions with application soft wares learnt at the click of mouse, with increasing foot fall the lab no 2, 3, and 4 were engaged with other departmental faculty pitched in to facilitate students have done with practice of latest lessons and topics there on.

There were several positives since this kind of sessions were not held previously student showed a multiplicity of interest, vividly show casing their talents in events like quiz, debugging Google web resources, creating add, creation of applications on mobile, utility software handling, languages vice versa.

Sno	Type of event	New concepts learnt
1.	First ICT definition goods	ICT services used in general ICT product definitions
2	Trends in online learning	ZOOM networks Webex, NPTEL workshops utilities of digital classrooms.
3.	Online gaming	Different game building soft wares known, Trends in online games New game technology multimedia flash oops corel draw and other soft wares, technical specifications of connectivity hardware required and system configuration.

## **Positives from 2009 year end ICT programs conducted by MIETW**

NPTEL Local Chapter' status from 'NPTEL Office, IIT Madras' on 6<sup>th</sup> Aug 2019.

Mr.B.Sai Venkata Krishna, Professor, Department of Mechanical Engineering, is given the responsibility as a 'Single Point of Contact (SPOC)' [Institute Coordinator] between MIETW and NPTEL,

The institute SPOC, Prof. Sai Venkata Krishna has passed on the initiatives taken by NPTEL to the faculty and students of MIETW, as and when announcements were made by NPTEL website and also, professor M Sai Venkata Krishna has carried on initiatives as nodal officer to put forth the concerns of all the participants to NPTEL Office. For smooth and easy functioning of the entire process of participant's registration and taking up the NOCs seriously till their final examinations, Department wise coordinators along with SPOC are appointed. So, there are totally 6 department coordinators coordinating with SPOC to make announcements in class rooms, for giving awareness to students, discussing with their respective HODs to allot the mentor faculty to the respective department courses to provide mentoring to the needy students/participants during the course taking up till final exams.

ICT in education improves engagement and knowledge retention. ICT is integrated into their courses which help the students to remain more engaged more enthusiastic in computing, it is a boost and boon for rural students who are cut away from technology and software inputs in their school levels could bridge appropriate understanding of concepts in IT (information Technology)

This could be proved the learner centric approaches, while increasing the productivity of teachers and acts as confidence builder, for teaching learning methods in concepts of IT.

**Report of program:**

**ALL DEPARTMENT FACULTY OF MIETW INVOLVED ACTIVELY IN CONDUCTION OF INTERNATIONAL YOGA DAY 2021**

On 11<sup>th</sup> December 2014 a resolution was proposed by Ashok Mukherji to the United Nations, and with the support of 177 nations there came an initiative with the highest number of co-sponsors for any UNGA program; it was then proposed to observe 21<sup>st</sup> June as International Yoga Day.

Every year, MIETW organized Yoga Day. Over a period of time it became important to impart physical education with yoga.

Yoga has a tremendous impact on the minds of people who are health conscious and also aware of the benefits of regular physical fitness and activities.

MIETW has observed Yoga Day as the opportunity to influence students to enhance physical health and follow the principle, "Sound Mind in A Sound Body."

Our students, year-by-year had shown great interest and come early to college and schedule the day for physical fitness and the call of the nation for health consciousness.

The enthusiasm did not die down as a stereotypic practice it replenish the interests and manifestation of divine connected by spirited participants especially girl child who is eager to study and go for household work and also coordinates with many disbursements is in the present day context vexed and confused with choices Yoga and meditation been intra curricular activity we designated staff to conduct sessions

During buffer period during rigid exam schedule and academics even though there is limited scope for these for stretch of calendar events Yoga and meditation sessions do take the relieving role.

Feedback summary

EVENT	INTERNATIONAL YOGA DAY JUNE 21 <sup>st</sup> 2021
venue	MIETW CAMPUS YOGA ROOM
EVENT COORDINATOR	Mr. Mahider, Certified Yoga Trainer EDULABAD GHATKESER.

The yoga instructor Mr. Mahider took yoga session with great dedication and motivated the members and conveyed the importance of making yoga an integral part of our daily life by the practice of yoga beyond the our other exercises, The session began by foreword by the trainer himself. Asana starting with warming up and stretching were followed. The session concluded with an interactive session between the instructor and MIETW students who were convinced by advice of the trainer for reducing daily pains and regular illness. The session was very refreshing, reviving and relaxing.

MIETW students have given positive feedback and also raised their queries of when the next session would be conducted and not been waited as a session comes in once in a year.

Lot of enthusiasm as the session extended from 45 min to an hour, students were eager to listen to the fifteen minute concluding speech by Mahider sir.

A few people from our dedicated faculty shared their experiences as it was very enjoyable, useful, informative and excellent. It was a session which created a bonding between the Faculty and student as faculty joined for pranayam and motivated students to participate alongside them.

This was a precursor to the Yoga session as faculty well geared up for the event and quoted to students to stay healthy and keep fit.

As the conscious was risen in students to instill this practice at the time of examinations to reduce exam related stress and improve memory.

### REPORT FROM THE SPEAKER

From Niranjan about the program:-

We offer need-based training services for campus recruitment, personality development, corporate training and technical training, in a 'one-stop shop' concept. Your quest for the best training environment ends here! Experience the power of next generation training with Career Conduit Management Solutions.

In today's world of competitive and qualitative educative needs, a student of any aura needs adept of aptitude for pre-emptive skills before taking any interview  
Interviews now a day patterns not only read your resume, and just pass you off, as proposed employee or they may term you as trainer, who foresees positions immediately is very unlikely,  
Since colleges like MIETW provide on job skills at the campus itself.

There in with understanding terms, to deduce gap between prospective job and a college graduate, Out goes in every college, lack skills basing on several factors, sometimes notion of good communication skills, assumed as a need of meeting success in job interview although reasoning and aptitude test fill in appropriate perceptions which employer want to put to test every time  
It's always a privilege and honor to be connected to MIETW for so long and positivity and vibrancy of students here is just unimaginably talented especially a girl child having done with studies and place herself in good positions in corporate firms is a sign of empowering self and society in her own way is noticeable factor.

**Suggestions:**

Relevance of program

1)Sushmita chin dam Btech 2017 civil group... “It’s a very good platform right in your college learning skills required for jobs and aptitude and reasoning are in need even to face any competitive exam”

Yashaswini 2021 btech CSE -A “learning reasoning is one my interests and its keeps you out of rote reading activity and refresh the brain”

Rukhaiya Begum 2021 btech ECE “reasoning is just working as capsule after this pandemic giving boost to all of us meghaians to foster job skills at ease

Need any change in concepts?

Thammi kavya (B.tech civil 2018) Good career boosting sessions on weekly basis if it is daily even though interesting.

Gudise Srilekha Btech ECE 2018 Great ways to deal with the competitive job market a true brain capsule to handle difficult job tests.

**Improvements found in learning Process:**

What help did you get through this Training?

P srivani Non IT companies take interview on basis of arithmetic coding and decoding number theory

Sylgosity and vice versa so need a special program to help you out sort topics to land in dream job.

Suggestions regarding opening of a new program:

### Remedial classes

#### A Report

To keep pace with the current technological trends, the department has a well designed syllabus to incorporate all advancements in existing and emerging technologies, which gives the students a holistic and pragmatic view, of the present scenario.

The Electronics and Software industry, demands the expertise from student community to take over the prospective career in their firms. The minutes of meeting during February 2020, it was constituted under rules of university some remedial class work have to be planned out for students for all years all streams in order to reduce gaps with pass outs and go getters.

Certainly with clearing major projects in EEE, CSE and ECE, for job projects and better outcomes in exams. We at MIETW and our expert faculty, who had ideated the interest manifestation through the online or offline remedial sessions. Because of Pandemic there were short comings of class work and laboratory work and records upkeep with manuals and library being away from students during the two years, of virus spread and non sanitized situation, persisted colleges were closed and course work.

The teaching being halted effecting students in such a bad way that learning became an ancillary task, passing examinations was herculean task, to this MIETW management have planned setting up, digital class work and offline classes, for average and weak, students that college premises would be open as per norms of the administrators the transportation to the Edulabad campus was provided as on demand and requirement to facilitate remedial sessions and offline classes for those, who missed mainstream physical classes. Moreover student mentors -would notify slow learners and weak students to avail opportunity of learning at college in wee hours and where class room session and faculty availability an online mode through web ex or zoom link is generated to conduct such sessions.

With faculty and class representatives stay back after recess to follow up tasks for students who want to improve on content revision which has been taken up at wee hours till 5pm after 3pm scheduled recess.

The period and remedial hours for lab activity or extra time for conceptual understanding have been taken up by MIETW from since time inception, our chief mentor and motivator shri Malathu reddy madam would be screening and monitoring the remedial hours of teaching and also HDDs and humanities and science department would plan out course of action to reduce the number of slow learners.

A report

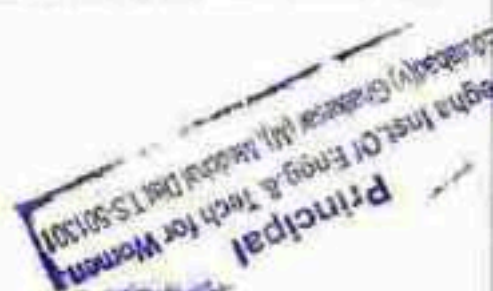

**EMINENT SPEAKER from Ramakrishna Mission Hyderabad**

**DOCTOR P. VIKRAM KUMAR ON Retention and Memory Techniques –A One day Work Shop**

Human life is surrounded by opportunities, situations for learning and experiencing, where in student have come across several innovative things as well as distractions so counter distractions Prof Vikram Kumar had initiate, a lecture on how to handle crisis, during co vid 19 situation with impetus on learning through media platforms and online applications. To have an idea on latest trends in psychological impacts on learning during 2019 and 2020 academic years.

Vikram have received a positive response from students with the interaction session was in vogue after the hour long seminar and lecture also threw light the mistakes done by the students who tend to make mistakes while preparing for exams and difficulties of students who falter to apply formulae in math and grammar in English and dates with history
