Bisleri OSR - An Overview

### Waste Management- A need of the Hour

**Post-40 Change**

Solid Waste Management is a major problem and a crisis in India today due to its rapid growth and development because of its improper disposal and poor infrastructure to handle its waste.

**Why?**

India generates approximately 1,23,700 MTs of Municipal Solid Waste per day, of which approximately 91,152 MTs (88.15 %) is collected and approximately 22,548 MTs (22.40%) is treated and close to 4078 MTs (3.46%) of Waste ends up in a landfill.
